

▶ Junior Civil engineer for construction

We are expanding in Sweden and need a Junior Civil engineer for construction and site team member of our wind energy projects in middle and northern Sweden

Your tasks

To start with, you will have a supportive role to the site management team in the ongoing construction phase of our wind farm project Stölsäterberget located 30 km from the city of Malung.

Depending on your capabilities and start date, you will have the possibility to participate in the on-site pre-construction analysis and the tendering of the works from subcontractors. You will be involved in the coordination of various sub-contractors, authorities and other stakeholders. In addition, you will take care of the Stölsäterberget related facilities.

You will also be in contact with our wind farm development team in Stockholm. The role is mainly located on site but will involve occasional travel to our offices in Stockholm and Storuman.

Your profile

- ⇒ You have successfully completed your studies of civil engineering and have 0-5 years of working experience
- ⇒ You have a positive spirit and believe you can make things happen
- ⇒ You have an understanding of working with time schedules and you like challenges
- ⇒ You want to learn new skills and grow to become professional
- ⇒ You have good common sense
- ⇒ You are fluent in Swedish and English

We offer

- ⇒ support and expertise of one of the biggest European companies in the field of wind project development.
- ⇒ Unique opportunity to participate in the expansion of a bigger global player in renewable energies in the Swedish market
- ⇒ integration into a very motivated, close-knit and positive-spirited team.
- ⇒ the possibility of developing your skills in a wide range of complex tasks in the field of wind power/ renewable energy
- ⇒ Possibility for international assignments after Swedish project(s) are completed

We are looking forward for your application with salary proposal and your CV the soonest, but no later than **February 28th, 2022**

The position will be filled at the earliest convenience, **latest June 1st, 2022**

Please send your application to: l.arklof@wpd.se
